PROFESSIONAL EXPERIENCE:

DuPont Inc. Washington, WV

(June 2013- March 2020)

Lead Process Operator & Lab Technician

- Operations Control Room experience monitoring the proper operation of multiple extruders (4) through computer systems.
- Responsible for the daily operation of two double screw extruders of 7200 lbs/hr extrusion lines (100M lbs/yr) capacity.
- Main accomplishments are:
 - Maintaining a clean safety record for the operation of my production lines
 - Reduced the downtime through continuous trouble shooting.
 - Becoming one of the leaders and teachers in the work area.
 - Improving projects and root cause analysis with maintenance and engineering as required.
 - Accountable for preventive maintenance on a variety of equipment.
- Responsible for the production process from extrusion through packing out of finish product.
- Ensure that materials consumptions are properly recorded in SAP in order to keep accurate inventories.
- As a line supervisor, the primary role is coordinating shift activities ensuring the safety and quality of the team, following production schedule, and assist in trouble shooting operations.
- As a Lab Technician my main responsibilities and accomplishments are:
 - Responsible for in process and finish product testing for reinforced and non-reinforced resins.
 - Equipment used for testing include but not limited to copper analyzers, moisture analyzers, X-ray analyzers, analytical balance, etc.
 - Ensure that the Laboratory protocols are followed and results are recorded in the system.
 - Perform all Quality System's transactions to finished products into SAP.
 - Initiate the Non-Conformance Investigation Report when products do not comply with Quality Testing.
